## Education

### Punjab Technical University

*B.Tech in Computer Science Engineering (8.06 CGPA)*

Aug 2022 - Jul 2026

*Punjab, India*

### Urmila Educational Academy

*Senior Secondary Education (65.50%)*

Apr 2020 - Jul 2022

*Basti, India*

## Experience

### Internshala Trainings

Jun 2024 - July 2024

*Web Development*

*Gurugram, India*

- Collaborated with the development team to design and implement web applications using HTML, CSS, JavaScript, and React. Assisted in back-end development using DBMS and PHP Participated in code reviews and contributed to improving code quality and efficiency. **Web Development.**
- Developed and maintained responsive and user-friendly web pages. **Web Development**, and different Assisted in troubleshooting, debugging, and optimizing code for performance. frameworks/libraries **Bootstrap** for efficient UI, **30+** hand-on projects make, while ensuring the UI will efficiently work, and working upon API requests .

## Technical Skills

**Languages:** C++, Python, HTML/CSS, JavaScript,

**Tool:** M.S. Office, M.S. Excel, M.S. PowerPoint

**Frameworks/Libraries:** ReactJS, Bootstrap, NodeJs, Express

**Dev Deployment:** VS Code, Postman, Git, Github, Render, Netlify

**Course:** Operating Systems, Data Structure, Analysis Of Algorithms, Computer Networks, Networking, Object Oriented Programming(OOPS).

## Projects

### Portfolio Website

Jun 2024

- [View Project's here](#)
- It is designed to provide a detailed overview of my expertise in web development, utilizing modern web technologies such as HTML, CSS, and JavaScript. **Front-end.**
- The website serves as a dynamic resume, highlighting my achievements, skills, and projects in an interactive and visually appealing manner, Implemented using media queries and flexible grid layouts.

### Ecommerce Website

Jun 2024

- [View Project's here](#)
- This project involves creating a fully functional Ecommerce website using HTML, CSS, and JavaScript, **Front-end.** Implement essential features such as product listings, product details, shopping cart, and checkout process..
- The website will be designed with a focus on usability, performance, and responsive design to ensure it works well on both desktop and mobile devices.

### Pizza Shop Website

July 2023

- [View Project's here](#)
- The Pizza Shop Website is an interactive and user-friendly web application designed to enhance the online presence of a local pizza shop. The site is developed using HTML, CSS, and JavaScript.
- providing a seamless and engaging experience for users to explore the menu, place orders, and learn more about the shop. Display of various pizza options with images, descriptions, and prices. **Front-end.**

## Achievements

- Participate place in a university-level Hacktunes among 500+ participants.
- Solved **100+** GeekforGeeks questions, earned the **2023 Annual Badge** for **20+** consecutive days, and part of the top **4%** GeekforGeeks users.
- Participating National Level Hacktunes **SIH.**

## Soft Skills and Interests

- Implemented a high-level project management framework, leading a cross-functional team to successfully deliver a complex software upgrade within a tight deadline, achieving a 20% increase in customer satisfaction ratings
- Interested in Participating in Hackathons and Coding Competitions.
- Implemented a scalable Frontend development framework ,optimizing data structures and algorithms to improve system performance, resulting in a 40% reduction in server response time and increased concurrent user capacity by 50%.
